Skills

- **Languages:** C, C++, Python, JavaScript
- **Web Development:** HTML, CSS, Node.js, Express.js, React.js, EJS, MongoDB
- **Technologies & Tools:** MERN Stack, WebRTC, Git, Flask, Scikit-Learn
- **Coursework:** Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks

Education

B.Tech in Computer Science and Engineering 2023 – 2027
National Institute of Technology (NIT) Delhi CGPA: 6.81

Class XII (RBSE) 2022
Shiva Academy Sr. Sec. School, Karauli, Rajasthan 86%

Projects

FakeBuster (Fake News & Spam Detection Platform) — *MERN Stack, Python, Scikit-Learn, Flask* 2026
GitHub Repository

- Architected a full-stack platform using React, Node.js, and MongoDB, communicating with a Python ML microservice for real-time fake news and spam classification.
- Integrated pre-trained Scikit-Learn models to provide users with predictive risk scores, detailed text explanations, and downloadable CSV batch analysis.
- Implemented persistent prediction tracking and a user feedback loop to refine the machine learning dataset over time.

SafeTrack (Digital Incident & Near-Miss Reporting System) — *Node.js, Express.js, MongoDB, Chart.js, JWT* 2026
GitHub Repository

- Developed a full-stack safety reporting platform with role-based access control (RBAC) to seamlessly track workplace incidents, near misses, and hazards.
- Built a secure backend using Node.js, Express.js, and MongoDB, integrating JWT authentication, Multer for evidence uploads, and a comprehensive audit logging system.
- Designed dynamic dashboard analytics utilizing Chart.js to visualize incident trends, status updates, and severity metrics for data-driven safety improvements.

Doctor Sahab (Healthcare Consultation System) — *Node.js, Express.js, WebRTC, MongoDB* 2025
GitHub Repository

- Developed a full-stack healthcare platform with secure authentication and role-based dashboards.
- Integrated real-time video consultation using WebRTC.
- Implemented appointment scheduling and automated prescription generation.

Achievements

- Strong foundation in Data Structures and Algorithms with consistent problem-solving practice.
- Built multiple real-world full-stack and Machine Learning projects.
