Skills

- **Languages:** C, C++, Python, JavaScript
- **Web Development:** HTML, CSS, Node.js, Express.js, React.js, EJS, MongoDB
- **Technologies & Tools:** MERN Stack, WebRTC, Git, ESP8266, Blynk, IoT
- **Core Concepts:** Data Structures & Algorithms, Object-Oriented Programming, DBMS

Education

B.Tech in Computer Science and Engineering 2023 – 2027
National Institute of Technology (NIT) Delhi CGPA: 6.66

Class XII (RBSE) 2022
Shiva Academy Sr. Sec. School, Karauli, Rajasthan 86%

Projects

Doctor Sahab (Healthcare Consultation System) — *Node.js, Express.js, WebRTC, MongoDB* 2025
GitHub Repository

- Developed a full-stack healthcare platform with secure authentication and role-based dashboards for patients and doctors.
- Integrated real-time video consultation using WebRTC, enabling seamless remote medical interaction.
- Implemented appointment scheduling and automated prescription generation to streamline clinical workflows.

Health Monitoring System (IoT-Based) — *ESP8266, Blynk, C++* 2024
GitHub Repository

- Built an IoT-based system to monitor ECG, pulse rate, oxygen levels, and temperature in real time.
- Enabled live data visualization through a mobile dashboard for remote health tracking.
- Improved early detection capability by continuously analyzing vital health parameters.

Intruder Detection System — *PIR Sensors, IoT* 2024
GitHub Repository

- Designed a smart security system that detects motion and sends real-time alerts to users.
- Implemented remote device control through mobile interface for enhanced security management.

Result Management System — *Node.js, MongoDB* 2023
GitHub Repository

- Developed a system for efficient management of student records, marks entry, and grade computation.
- Designed optimized database schema ensuring fast query performance and scalability.

Payroll Management System — *Node.js, Express.js, MongoDB* 2023
GitHub Repository

- Built a backend system to automate salary processing, tax calculations, and allowances.
- Implemented secure CRUD operations and structured data handling for employee management.

Achievements

- Strong foundation in Data Structures and Algorithms with consistent problem-solving practice.
- Built multiple real-world full-stack and IoT-based projects demonstrating practical implementation skills.
